Re: Brazil - NFIP
Community Assistance Contact
Community # 180511

Dear Mayor Bradshaw,

This is to confirm a Community Assistance Contact that is scheduled with Ms. Stacy J. Gibbens to discuss your community's participation in the National Flood Insurance Program (NFIP) and to assist you in addressing any concerns about its implementation. The Federal Emergency Management Agency has requested that the IDNR Division of Water conduct this meeting on its behalf. We will review your local floodplain regulations and enforcement procedures. This meeting is July 14, 2009, at 12:30 PM in the City Hall. Please have the following documentation available:

1. Information regarding your community's permit process.
2. A current copy of your community's permit or application form issued for development in floodplain areas even if none have been issued.
3. Information on and copies of the number and types of permits and variances that have been issued during the past year and elevation documentation for developments in floodplain areas.

You are encouraged to attend and to invite those local officials involved in the review and approval of proposed development. Examples of appropriate officials are those involved with zoning administration, building inspection, engineering, planning, community development, etc. The meeting should take no more than one or two hours.

Thank you in advance for your cooperation in this effort, and I look forward to the opportunity to discuss floodplain management with you. If you have any questions, please contact me at (317) 232-4160 or toll free at 1-877-928-3755.

Sincerely,

Darren M. Pearson
Water Planner 3
